

What's Coming Soon?

More USB products that will not only enhance our current USB product portfolio, but are the next generation of design-in USBs.

Included in the USB expansion:

A mid-mount micro USB Type B receptacle that utilizes the mid-mount design for added stability.

USB 3.0, also known as Superspeed USB

Includes: Type A plug and receptacle and a Type B receptacle.
Look for more USB 3.0 products to be added to our product mix throughout the year.

Official releases are planned for Q2, but inquiries are welcome.
