## **Kycon Adds Vertical A Type USB 3.0**

San Jose, CA – Kycon expands their USB 3.0 product line by adding a vertical A type option, to increase design options.

USB 3.0, also known as SuperSpeed USB, supports data transfer rates of up to 10 times faster than the USB 2.0 version and is backward compatible with existing USB devices. This new USB 3.0 product enhances any device requiring higher speed data transfer such as high-resolution webcams, video surveillance cameras, digital video cameras, and external media such as Blu-Ray drives.

This part meets the USB Implementers Forum's SuperSpeed USB Specification that allows not only product interoperability with existing USB 2.0 products, but also allows users full duplex arrangement data flow.

### **Key Specifications:**

- Vertical, top entry, through hole termination
- Backward and forward compatible to USB 2.0 products

### **Part Numbers:**

- KUSBVX-AS1N9-BL15 VERTICAL A-TYPE SOCKET, 9 PIN, BLUE INSULATOR, 15u" GOLD

Please contact Kycon for pricing.

By continually expanding their connector lines, Kycon enables product designers and manufacturers to specify Kycon connectors and cables in their products to ensure reliability and greater customer satisfaction. Kycon, Inc. continues to be rated one of the top connector companies in overall product quality, sales support, customer service function, and website usability, by [Bishop and Associates](#), a connector industry consulting firm. For more information or to experience why Kycon has earned such prestigious acclaim, please visit Kycon's website at [www.kycon.com](http://www.kycon.com)
