

Kycon Announces Board-to-Board Connectors

San Jose, CA – Expanding their connector line to meet the growing global demand, Kycon has just introduced a full range of Board-to-Board connectors, focusing on 0.5mm through 2.0mm pitch board, for both surface mount and through-hole applications. Kycon also has a full line of 0.5mm and 0.1mm FPC/FFC connectors, in addition to their top-ranked I/O connector offerings.

Micro Board to Board products include the K050 and K080 series plug and socket, with pitch versions of 0.50-mm (.020”) and 0.80-mm (.031”) respectively. The K050 series offers dual points of contact per position for added reliability and enhanced performance. Mating heights range from 3.5-mm to 6.5-mm with pin counts ranging from 10-120.

The KFPC series offers the Flexible Flat Connector (FFC) and Flexible Printed Connector (FPC) with pitch versions of 0.50-mm (.020”) and 1.00-mm (.039”), and pin counts from 4 to 50. Both FFC and FPC are offered in Zero Insertion Force (ZIF) and non-ZIF versions.

Kycon’s Board-to-Board products are all RoHS compliant and available as tape and reel or tube versions.

Kycon continues to offer a complete quality connector product line, including customized solutions, while maintaining world-class services and support that has consistently earned them Bishop’s top-rankings for customer satisfaction.
