Kycon Expands Optical Audio Line

San Jose, CA – Continuing to expand upon its broad product offerings, Kycon adds new products to their optical audio line – the KFOX and KFO42X series. The series provides cost-efficient and space-saving solutions used in end consumer products such as digital televisions, set-top boxes, and DVD/Audio components.

Both the KFOX and the KFO42X series, which complies with JEITA standards, offer a split-gate transmitter and receiver option. The KFO42X series is available as a stacked optical with an RCA jack, stereo jack, or Mini-Din option.

Kycon continues to offer a complete quality connector product line, including customized solutions, while maintaining world-class services and support that has consistently earned them Bishop's top-rankings for customer satisfaction.

For more information or to build your product part number, please visit Kycon's website at www.kycon.com
